

Above-The-Floor Spotting Instructions

(Upholstered Furniture ☞ Draperies ☞ Wall Coverings)

READ ALL INSTRUCTIONS BEFORE PROCEEDING

- A. If possible, remove liquid spots and spills before they dry.
- B. Lift any solids or semi-solids by pinch blotting, vacuuming or scooping.
- C. Blot or wick-up liquids with a white terry towel or white paper towels, **NEVER RUB!**
- D. Before applying **ANY** cleaning agent to a spot or spill **ALWAYS PRETEST** fabric for colorfastness. (See colorfastness test below.)
- E. Do not attempt to remove any spot (other than using steps A, B and C) on delicate fabric such as velvet, chenille, linen, silk and fabrics with polished finishes until you call your local Fiber-Seal Service Center.
- F. Using the guide to the right, apply the recommended Fiber-Seal spotting agent(s) to a white terry towel and press to the spot. **NEVER RUB!**
- G. Continue to apply the cleaning agent(s) and blot. Repeat as long as the spot continues to transfer to your towel. **STOP** when no more of the spot transfers.
- H. If a spot does not respond to this procedure, call your Fiber-Seal Service Center for assistance.

COLORFASTNESS TEST:

Apply a small amount of the cleaning agent to an inconspicuous area. Let stand for 5 minutes and gently wipe with a white terry towel. **IF ANY COLOR MOVEMENT OR UNUSUAL CHANGE IS DETECTED, STOP** and call your local Fiber-Seal Service Center.

YOUR FIBER-SEAL RESOURCES:

Fabric Sponge ☞ Kleen-Tec ☞ pHnominal ☞ ColorReneu (see packaging for complete application instructions.)

Find your spot/spill on the list below and follow the steps, using the six Fiber-Seal solutions. Read all instructions before proceeding.
